Re: Notification of Commencement of Mining Operations at the Whirlwind Mine,
Permit No. S/019/065

Dear Paul:

Energy Fuels Resources Corporation (Energy Fuels) is pleased to notify your office that final BLM approval of mining operations at the Whirlwind Mine was received on September 10, 2008 and Energy Fuels commenced with mining operations on that day. This notification is provided in accordance with DOGM's approval letter, dated May 6, 2008. Energy Fuels currently does not have any immediate plans (i.e. in 2008) to install any of the ventilation shafts in Utah as further mine development in Colorado must progress first.

Please feel free to call me (303-974-2151) with any questions or concerns you may have.

Sincerely,

Zach Rogers, EIT
Environmental Engineer
